Haliburton High School Glee Club Scores With Winning Record

In these days of Rock and Roll and other Tub Thumping sounds which pass for music, it's a rare treat to be able to listen to the recording of the Haliburton Highlands Secondary School Glee Club. This group of local youngsters under the direction of Wm. Glidden and with Dennis Casey as conductor has assembled a group of songs on a long playing Record which could well be the envy of many a professional choir.

Side 1 starts with a version of Bobby Gimby's "Canada" followed by several popular songs from current hits including "We are off to Dublin in the Green" made famous by Carlings and the Abbey Tavern Singers, but prob-

ably the most impressive number is the short solo by Julia Woodcock in "Somewhere my Love" from the theme song from Dr. Zhivago.

Side two carries on in the same enthusiastic and lively manner winding up with "Try to Remember" the Theme song from the Fantasticks.

My first reaction was that this was rather an anti climax as a finish for such a lively platter but when we consider almost everything seems to suddenly wind up in September" is really a fitting finish even if most of us would rather concentrate on June is Bursting out all over."

This is a truly thrilling record because it's a record of youth —

our Haliburton youth. What they lack in polish is more than made up in nerve and enthusiasm.

In a group such as this probably the most important member and the one who receives the least recognition is the Piano accompanist. To a trained ear — this back ground music must be classed as superb.

If you have a record player you should have one of these records but if you don't have a record player then I say you should get one if only to enjoy this centennial Project L.P. Record of the Haliburton Highlands Glee Club.

Ask any High School Student to get you one or order through your music dealer.

Ask for No. LSP 6705 LES. SMITH RECORDINGS. TORONTO. You'll be glad you did. Its "Home Town" and its good.

GRADUATES

Pictured is Penelope O'Neil of Minden who received the Bachelor of Household Science degree.

Dr. C. A. Mitchell gave the Convocation Address at the University of Guelph when a total of 175 graduates received the Doctor of Veterinary Medicine, Bachelor of Household Science and Master of Science degrees during a morning service.

CAR CRASHES INTO RESTAURANT SEVEN PEOPLE INJURED IN MISHAP

Seven persons were injured when a car crashed into the front of a restaurant in Haliburton Saturday evening. said Police. Minden OPP Constable M.I. Maher investigated.

Police said two of the injured are still in Haliburton Red Cross Hospital, the others have been released.

In hospital are Lynda Mack, 13 of Port Credit with concussion and lacerations and Kathleen Lath 13, of Port Credit with lacerations and concussion to her face.

Others injured in the crash were the driver of the vehicle Catherine Potter, 63, of Port Credit and passengers, Patricia Jones, 12 Deborah Papp, 12, and Donna Lawrence, 13, all of Port Credit and Nancy McDonald, 20, of Etobicoke.

Damage to the car was estimated at \$1,500 and the restaurant sustained \$1,000 damage.

Police said Mrs. Potter stopped at Elstone's service station for gasoline about 6:40 p.m. Apparently the accelerator linkage broke, causing the car to jump forward.

The vehicle continued across the street and crashed into the restaurant, owned by Ray Archer,

MATERIAL NEEDED FOR CENTENNIAL ISSUE

In the month of July the Minden Progress Presses will produce a Centennial supplement which will be inserted into the Thursday Issue of the Progress.

The Centennial issue will carry Centennial advertising, along with pictures and articles of Centennial interest from Minden and area. Anyone having old pictures or articles, and would like to have them published, please drop them into the Progress office.

The cooperation of our readers and residents of Minden will play a big part in making Minden's Centennial edition a success.

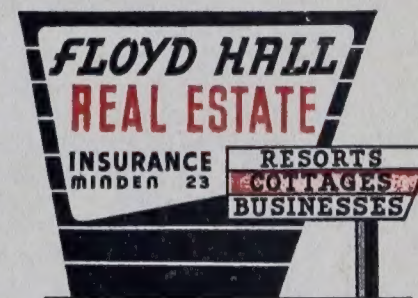

FAIR DATE HAS BEEN SET

It was announced this week that the Minden Agricultural Fair will be held on Saturday, August 26th.

Much is being done to make the Minden Fair a big event for Centennial year.

M.P. William (Bill) Scott, seems to be enjoying himself, as he got in line for this picture dressed in his Centennial outfit, at the Fun Party held at the Home recently. Others in the photo from L to R — Mrs. Lorne Coburn, Mr. Bob Harvey Sr., Mrs. R. Wilkinson, Mrs. K. Lunham, Bill Scott, Mrs. Irene Moore, Ted Madill.

Here and There

with
FENWICK FINCH

There are a few more flags going up around town. Jack Austin of the Esso Station has two of his five up. The Department of Lands and Forests were overlooked last week — they fly flags continually.

Speaking of flags, I had a telephone call from a representative of the Women's Institute — it seems that over a year ago they gave a flag to the Municipality with the promise it would be mounted on a flag pole — they were wondering what happened to it?

Last week we mentioned an idea that Fran. and Ken Adamson of Beverly Park came up with. It seems like quite a sound idea to me — just how you would work it is the 64 dollar question.

Each week news announcers make a great to do about the weather forecasts. They keep harping on the weather in the "summer cottage areas" if they keep talking rain — and more rain — it soon discourages anyone who might be wavering on whether to come up or not. In a great many cases these weather forecasts aren't accurate. It may be raining cats and dogs in Toronto and the weather sunny and beautiful in the Highlands.

So, the idea is — to get the announcers to lay off the weather bit, at least not make it a major production. How to get this accomplished is another thing. Anyone care to come up with any ideas?

I was stopped on the street the other afternoon — "You know, Fenwick, your editor wrote quite an article on housing — I couldn't agree with him more, but, there are two sides to any coin — he should look at the obverse side of the coin before he goes off the deep end."

That's up to the "Ed." friend — see him.

Having coffee the other morning it was my pleasure to visit Expo 67 through the eyes of our genial druggist Lorne Coburn. With his skill at recounting what he saw — it was every bit as good as being there yourself.

Speaking of Expo it seems they had some trouble with people not being able to locate the toilets. They overcame this, now, the problem is what to do after you locate them and have to stand in line while 250 other people have the same idea you have?

I see that the appeal against the United Church His action in removing Rev. Harry MacKay (the sex-sermon minister) from office in 1965 has been dismissed. This is a paradox. On one hand the United Church espouses the "new morality" then, when one of their ministers speaks out they cut the rug out from under him.

This new morality is confusin' but not amusin' — in the old days people got a vacarious thrill from "tasting of the forbidden fruit" now, if under the new morality you can justify adultery by throwing in a little "love" on the side and the church will back you up, well, it sorta is like taking the "zing" out of life — just don't make things seem as adventurous. Maybe one of the "flock" can straighten my thinking out on this.

Traffic is heavy again and problems arise day after day. There is a saying up here — "we don't have many accidents but when we do — they're real dang dandies." Don't let that be said of you — better to read about 'em.

Fenwick

NORLAND RESIDENTS ATTEND CONVENTION

Bill and Anna Wunker, R. R. one Norland, Ontario were among the more than 6,000 distributors attending the Seventh International Convention of the Amway Corporation, May 24 through May 27 in Grand Rapids, Michigan.

Bill and Anna Wunker owns a distributorship of over 100 home and personal care products of Amway Corporation in the Norland area.

This year's Convention was in many ways the largest Amway has conducted in the brief eight year history of the Company. Highlighting the day's activities were speeches by Jay Van Andel, Chairman of the Board of Amway, and Richard De Vos, President of Amway. Paul Harvey paid an unexpected visit to the Convention. Conventioneers also had the opportunity to see the 180,000 square feet of office and plant facilities, which are now undergoing another four expansions. Distributors in Seminars learned new techniques which will help them in the operation of their independent distributorships.

Michigan's Governor, George Romney was the keynote speaker. Amway produces an ever growing range of household cleaning specialties, including home, auto and a rapidly expanding number of personal care products. All are distributed on a person-to-person basis by independent business people.

LESLIE FROST CONFERS DEGREES AT TRENT U.

Former Ontario premier Leslie M. Frost was inducted Friday as Trent University's first Chancellor and conferred degrees on the first graduation class.

In a ceremony at Champlain College on Nassau Campus, Mr. Frost also conferred honorary degrees on five noted Canadians from politics, law, economics and the arts.

Many officials from the three levels of government, dignitaries from other provinces and the general public watched the ceremonies.

Rabbi A. M. Babb of Beth Israel Congregation, pronounced the invocation. A welcome was extended by university president Y.H.B. Symonds. The instrument of appointment to the office of chancellor was read by registrar A.O.C. Cole and the oath of office was administered by C.K. Fraser, chairman of the board of governors.

Mr. Frost was installed as chancellor by President Symonds.

Mr. Frost spoke to the gathering before turing in to his first official act as chancellor presentation of honorary degrees.

The convocation address was delivered by Mr. Justice Laskin.

NOTICE

The owners of all properties are responsible for the destroying of all noxious weeds on their property before the weeds come to seed, which is generally before June 30th.

Failure to comply with this regulation may be costly to the owner, as laid down in Regulation 565, The Weed Control Act.

WE HAVE QUIT AGAIN

How many times have you heard that story, everyone seems to be addicted to one thing or another, and time and time again say they have just quit. It could be smoking, drinking, or even eating.

We have a bad habit of smoking too much, and when one looks about the waist line, we guess you could say we don't know enough to get away from the table either. So, once again we have given up the smoking and have put ourselves on a rabbits menu.

It is useless to go on a diet or to stop smoking, drinking or using drugs, unless this move is the first step towards a permanent change in living habits. The change must be sufficient to achieve freedom from the addiction and more rewarding experiences in day to day living," notes the medical director of the Bell clinic in Willowdale, Ontario.

Dr. Bell describes addiction, whether to food, tobacco, alcohol or drugs as a treelike disability with roots, trunk and branches.

The first stage of the addiction, the original dependence — the original reasons for experiencing welcome effects — are the roots, both psychological and physical. The psychological dependence may be rooted in states of tension, shyness, frustration, loneliness, pain, boredom etc. The physical contribution, says Dr. Bell, is an adequate tolerance for the chemicals used.

The second stage of an addiction is the required dependance which Dr. Bell compares to two main trunks, mental adaptation or habit, and physical adaptation or tolerance. Eating for the sake of eating, smoking for the sake of smoking, all indicate addiction.

The addict begins his dependence because he wants to; after acquiring additional dependence through the process of adaptation, he continues because he has to — the force of the addiction is often too great to be opposed unaided. This can apply to an addiction to anything, including food and tobacco.

Stage three is the development of branch like disabilities. These secondary disabilities divide into physical and social problems, and very greatly from addiction to addiction.

It is important to appreciate, Dr. Bell concluded, that the main trunk — the more powerful part of any addiction is mental, and that psychological dependence is the most difficult part of an addiction to bring under control.

After reading this little squib by Dr. Bell, it just makes one wonder what state of being we are in. We have to admit we are addicted to food and smoking, for life just doesn't seem to be the same without these wonderful habits. If we are to kick the habit of smoking and eating, and still remain half pleasant to talk to, we might have to take a trip with LSD.

KINMOUNT P.O. TO COST

\$30,900

The new Kinmount post office will cost 30,900. This was the low bid submitted by A & A Construction, Patricia Avenue, Toronto. William Scott, M.P. for Victoria-Haliburton said today. The effective date of the contract is June 1st. Construction is expected to take place in the near future.

The new post office will be located on the main street of the village.

BOBCAYGEON WINTER CARNIVAL

Dates for the Bobcaygeon Winter Carnival have been set for February 23 d - 24th and 25th, 1968.

The Carnival Committee are working on plans to add many features, for events to take place both indoors and outdoors. A bigger and more attractive programme, is well under way.

MINDEN POLICE REPORT

Minden Detachment of the Provincial Police report a very busy period for the week of May 21 to May 27, they investigated two property damage accidents with total damage amounting to \$1725. and two personal injury accidents with four persons injured and damage to the vehicles estimated at \$2250.00. Cottage break-ins took up a considerable amount of time as seven were investigated along with six thefts, two assaults, two disturbances, two trespassing complaints, one, drowning and two missing persons. Six messages of a compassionate nature were delivered to persons visiting the county. Also during the week the officers of Minden Detachment patrolled 3,440 miles of provincial and county roads and laid twelve traffic charges.

Since the tourist season is again upon us, we will no doubt receive several complaints of people trespassing on somebody else's property, the following will help to clear up any misunderstandings which may arise with regards to trespassing and is taken from the Petty Trespass Act. Every person who unlawfully enters or in any other way trespasses upon another person's property, (a) that is enclosed, (b) that is a garden or lawn or (c) with respect to which he has had notice of mouth, or in writing or by posters or sign boards so placed as to be visible from every point of access to the land, not to trespass and whether or not any damage has been occasioned thereby is guilty of an offence and on summary conviction is liable to a fine.

VETERANS WEEK JUNE 11 — 17

National Veterans Week, June 11 — 17, is being sponsored as a part of Canada's Centennial celebrations by the government through the Department of Veterans Affairs, and veterans associations.

At the conclusion of Canada's first century it seems fitting that the contributions and sacrifices of those who protected our freedoms in time of war and helped to build up our nation in time of peace should be remembered.

Beginning with memorial church services and the laying of wreaths on Memorial Sunday, June 11, the week will be filled with activities for Canada's 975,000 living veterans of the four wars in which Canada has participated since becoming a nation.

Those who served in the two World Wars are being asked to wear their service or "discharge" button during the week.

TORONTO SET FOR GOLF'S RICHEST PRIZE

Big names like Palmer, Nicklaus, Brewer and Boros are signed for this year's Carling World Championship, scheduled for September 1 - 4 at Toronto's new multi-million dollar Board of Trade Golf Club. The \$200,000 tourney, golf's richest purse, offers \$35,000 to the winner, and there'll be a field of 155 pros.

NEWS FROM MINDEN CURLING CLUB

The executive of the Minden Curling Club held an enthusiastic meeting on Wednesday, May 31st.

A "Nine-day Summer Mixed Bonspiel" is planned for July 29th, to August 6th, inclusive — commencing on a Saturday and ending on a Sunday — tell your friends to enter a team. (2 couples) Art Hodgkinson will co-ordinate the time-table for volunteer helpers to staff the arena for these days. President Gene Whitney says "To make the Bonspiel a 100 per cent Co-operation" call Art Hodgkinson or Win Minto, tell them the time and date you prefer to help and they will appreciate it. Wouldn't Art be surprised and delighted if you called him Now.

Another exciting project is the "Snowmobile Draw" Alton Duncan was unanimously appointed as chairman for this important fund-raising effort. Dunc will expect every man (ladies too) to do their duty — Sell — Sell — Sell. Read "Sports" Column by Bob Beaney for further details.

SPORTS

WITH BOB BEENEY

Perhaps the biggest venture ever sponsored by the Minden Curling Club is scheduled for nine days starting July 29 and ending August 6. The annual summer bonspiel will more than likely be the biggest athletic competition to grace this part of the Haliburton Highlands. It runs second only to the hockey school in Haliburton.

It is planned to have seventy two rinks entered for the event and already more than half of the schedule has been filled.

The problems of running such a large bonspiel in the summer are enormous and it is certainly a credit to the hard working members of the club and especially the President Gene Whitney and Secretary Treasurer, Doug McGee. Gene is also the bonspiel chairman for the venture.

Teams have been entered from Kingston, Trenton, Toronto, Hamilton and in fact from all over Ontario. The curlers will be competing for the Hiram Walker Trophy and a fine set of silverware which is presented to the winners of the overall tournament. Prizes will be won every day and are worth quite a bit more value than the prizes offered at the summer spiel two years ago.

The tournament is scored on the point system and the competition is expected to be very keen.

Each rink will compete on a certain day so that the members will be able to travel home after they play their games so it is quite possible for a team that curls on the first day of the tournament could be the winner. However it would still be impossible to determine the winner until all rinks have competed.

An extra highlight of the event will be curling tests that will be conducted by an expert to show how far that a rock will draw on guard weight. This will certainly be studied closely by the many ardent curlers attending the competition.

It is planned to put ice into the rink about a week before the competition starts and this will assure that the ice will be in top condition. The ice making plant is capable of producing excellent ice no matter how high the temperature rises during the warmest days of the summer.

The ladies of the Curling Club will run their canteen in the lobby of the rink and a bar will also be in force to quench the thirst of the competitors.

Spectators are welcome to come and go each day and any person who would like to join the Minden Curling Club are doubly welcome.

A touch of amusement to the nineday event will be a decision by each curler who will have to decide whether to wear the garb of a curler — tam, bulky knit sweater heavy pants etc. — or to arrive at the rink in the suitable leisurely clothes worn in the hot summer days.

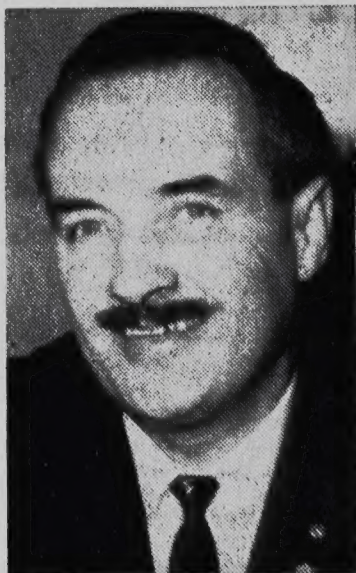

I wonder who'll be the first to try to curl a game in shorts.

Walter Safety says,
"Avoid playing with
air-inflated toys
and inner tubes
in the water.
Keep them on the beach
where they belong."

What's It All About ?

by REV. JIM

Question —

Is it right for a Christian to drink strong drink?

Answer —

In Matthew 15:17 we read where our Lord said "Whatsoever entereth in at the mouth goeth into the belly, and is cast out into the draught. But those things which proceed out of the mouth come forth from the heart, and defile the man. For out of the heart proceed evil thoughts, murders, adulteries, fornications, thefts, false witness, blasphemies." Jesus is simply saying what causes us to go wrong has its origin in our emotional makeup. If we are right in our emotions drink will not bother us and would not be wrong.

How do we become right in our emotional makeup? It was believing in Jesus as Lord that helped me. I do not mean by this that I am perfect but I do confess a purity of heart in my life that I did not have before.

What does it mean to believe in Jesus as Lord? First it does not mean to believe that strength of will is Lord. (That somehow by will power alone we can cleanse our mind and right our emotions.) It is true commandments have a part to play but not as Lord. In other words they can not rule our life because they are not strong enough to give life. How then did believing in Jesus as Lord help me?

Through reading the Bible and talking to other Christians I saw a power in the life of Jesus that was to be desired. I also saw that this power (or Spirit) was available for me, and set out to seek it. It was a long difficult task. Two things in particular happened before I knew the release of this power or Spirit that is deep in the soul of us all. First — I had to believe and confess that I was a Christian. This was difficult. It took a lot of imagination to see myself in this role because I couldn't see myself as being good enough. But I believed the best I could and confessed whenever and wherever I could. Secondly — I had to give into this Spirit that is deep within us all. How do you give in? You simply come to that point wherein you see that outward observance and will power alone will not work and you say "I am defeated Lord you take over." Our importance is God's opportunity.

Of course this is only a beginning. There is a going on which involves the exercise of the things of the Spirit love, faith, hope, as over against such commandments as thou shalt not drink or thou shalt drink etc.

Please Note: Anyone who desires to see the minister, he is in church every Sunday morning — See you there.

FENELON FALLS SPINNING PLANT TO CLOSE

The second largest industry in the village of Fenelon Falls will shut down within the next two or three weeks.

Officials of J.L. White Yarns Ltd., of Fenelon Falls, a spinning plant which employs about 40 persons, today confirmed the company had been purchased by Park Spin Co. of St. Thomas and the Fenelon Falls plant would shut down as soon as the present stock of materials is depleted.

Company officials said the shut-down would be within three weeks. Machinery from the building will then be moved to St. Thomas. Officials said they did not know what was to be done with the building itself.

The shut-down, however, will not mean unemployment for all the employees of the company.

The Park Spin Co. has made an offer to hire any of the present White Yarns Ltd. employees who want to move to St. Thomas and other companies reportedly have made offers to employees of White Yarns Ltd.

Allen Wood Products Ltd., the largest industry in Fenelon Falls, expects to hire about 10 of the employees thrown out of work by the shut-down. The manager of the wood products firm today said some of the yarn company's employees have already been hired.

Most of the employees of J.L. White Yarns Ltd. are female and a number of them are not expected to seek other employment.

Supervisors at the plant said they had not yet decided whether they would go to work for the St. Thomas firm or seek employment elsewhere. They said their decision depended much on wage offers by the St. Thomas Company.

WALLEYE FISHING IMPROVES

Conservation officers report that angling success for walleye (yellow pickerel) throughout the Kawartha lakes has improved considerably during the past week.

FORESTRY SERVICE POPULAR

This spring 164 landowners in Southern Ontario received forestry from the Department of Lands and Forests under regulations of the Woodlands Improvement Act. A total of 1,925,000 trees were planted on 2,600 acres of abandoned land. The landowners paid for the trees (one cent per tree); the Department of Lands and Forests provided free tree planting service.

To qualify for this service, owners must be willing to treat at least 5 acres.

Property owners in Durham, Northumberland and Peterborough Counties should apply now for 1968 service.

WOODS. WATERS AND WILDLIFE

The neighbour's beagle came home wearing an extra set of whiskers, which was the first indication we had that a porcupine had moved into the neighbourhood.

The problem, of course concerned restoring the little hound's face to normal. We used the time-tested extractor - pliers. There are many theories about how porcupine quills can be removed from flesh. All of them interesting. But, pliers work.

Ideally, one should not pull out a quill. The porcupine quill is a modified hair - seldom more than three inches long - it bears scaly barbs which anchor it firmly in any flesh that the porcupine strikes with its tail. When one pulls on the quill, the barbs catch in the flesh.

All things being equal, the efficient means of removing a porcupine quill lies in pushing it through the flesh and out the other side. This prevents the barbs from catching in the flesh and it works rather well if one finds simple situations, such as a quill stuck in the fleshy ear flaps of a long eared dog or the flesh between

two human fingers. But one seldom finds such conveniently-placed quills. The push system does not work well if the quill has been lodged in a position that would require pushing it through the dog's brain and out the opposite ear.

The average porcupine has about 30,000 quills, covering its body from head to tail. In addition, it has the long guard hairs and short undercoat hairs that all mammals have. Porcupines are born with quills, but they are soft and flexible until the little animal dries.

Porcupines are not vicious, according to the Federation of Ontario Naturalists. They are defensive reactors, rather than aggressive. They are activated by the proximity of another creature. When some animal comes close to them, they apparently do not trouble their small brains by weighing whether the other animal poses a threat. They slap it with their quilled tail, instead. Thus, when an over-friendly cow wanders nose to nose with a porcupine, the cow usually winds up with a muzzle full of quills.

CENTENNIAL MUSIC NIGHT AT LUTTERWORTH

Last week the pupils of Lutterworth Central School paid tribute to Canada through song.

Plans for a Centennial music night were introduced by music supervisor Mrs. Valentine, and teachers Mrs. Elstone, Mrs. MacKay and Mrs. Stuart cooperated to produce a fine programme. The transformation of two classrooms into an auditorium provided seating for more than one hundred parents and friends. Pupils' paintings and sketches of Canadian heroes, provincial emblems, and maps, adorned the walls. M.C. for this event was Bill Leary.

The primary grades, dressed in red and white capes, performed with a rhythm band, Happy Birthday to Canada, and numerous action songs. Junior grades sang heartily, Land of the Silver Birch, Strawberry Roan, We're off To Expo, I'se the B'y, Canada Home of the Free and rounds and

group songs. Intermediate grades entertained with Ah Si Mon Moine Voulait Danser in French, history songs such as Battle of Queenston Heights and many two parts songs. The following soloists are to be congratulated - Wendy Greer, John Aggett (vocal), Susan Leary, Susan Brohm (piano). Square dances were demonstrated by an older and a younger group. Girls wore gaily coloured skirts all the same. The evening's entertainment included songs from all the provinces and a large chorus singing Canada.

The evening ended with an oral report on the history of Lutterworth Schools. Then awards were made to pupils for: best speech to Susan Cameron (grade six), best creative story to Nancy Nye (grade three), best notebook to Susan Archer (grade eight). Refreshments and the distribution of centennial souvenirs followed.

WEDDING

SHANTZ — HORNBERG

Mr. and Mrs. Frederick Hermal Emil Hornburg, who were married Saturday, April 15th, enjoyed a honeymoon in the mountains and sunny country of Jamaica.

The bride was the former Alice Pauline Shantz, 88 Moore Avenue, Kitchener, a daughter of Mr. and Mrs. Mervin Shantz, Minden.

The bridegroom, of St-Timothee, Quebec, is a son of Mr. and Mrs. Emil Hornburg, 384 Erb Street West, Waterloo. He is a graduate of the Hamilton Institute of Technology, where he was sponsored

by Dominion Textile Co. Ltd. Since graduating he has been employed by the company in Valleyfield, Quebec.

James Reusser officiated at Stirling Avenue Mennonite Church, Kitchener.

The couple were attended by the bridegroom's brother and sister-in-law, Mr. and Mrs. Paul Hornburg, Waterloo.

A reception was held at Berkeley Square, King Street, East Kitchener.

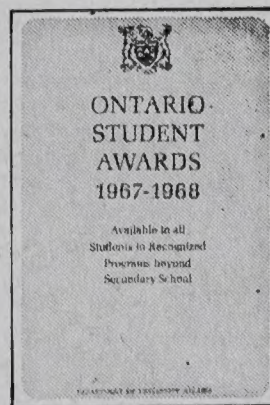

The couple are living at 32 St-Laurent, St-Timothee, Quebec.

Walter Safety says, "Wear a government-approved life-jacket when water skiing. The law says—have a lookout man in your tow-boat and ski only from sunrise to one hour after sunset."

"Yes you can continue your education."

This booklet shows you how you can get financial help.

Do you plan to attend a university or other post-secondary institution? Do you need financial assistance?

EXTREME SHORTAGE OF DOCTORS IN VICTORIA HALIBURTON AREA

The Victoria - Haliburton area has an extreme shortage of doctors and no relief in the situation is in sight for the immediate future.

Dr. F. J. Moran, president of the Victoria - Haliburton Medical Society, commenting on the shortage of physicians, said the number of doctors in the area served by the Ross Memorial Hospital should be increased by one-third to have the minimum number necessary to cover the area.

At present there are 30 doctors, of which six are specialists, covering an area of some 3,250 square miles. The area extends from the south of Sunderland, north of Algonquin Park and includes the north parts of Peterborough and Ontario Counties, part of Durham County and all of Victoria and Haliburton Counties.

How can the problem be remedied? Dr. Moran says he doesn't know.

He said he and other doctors have tried to persuade other physicians to come into the area but they have had no success.

Dr. Moran said universities hoped to graduate more doctors in 15 years and he expected this would help relieve the problem in the more rural areas but there was no immediate relief in sight.

"It is the people who suffer," he said.

Persons requiring the services of a doctor now often find it difficult to get a physician and it is becoming increasingly difficult for persons to get a doctor when they need one, Dr. Moran told "The Post".

According to the Medical Society president the reason they can't get recently graduated doctors from the city is because they "haven't got the guts to come up to this area". Dr. Moran said young doctors are frightened of being on their own — afraid they would not know what to do if an emergency arose.

He said if some doctors in suburbia would come to the area and "give it a try" they would find they would be just as happy as where they presently are.

HALIBURTON STUDENTS CAN

ATTEND SIR SANDFORD

FLEMING CAMPUS

District high school students have been learning this month about a new college-level educational opportunity being made available to them this year by the creation of the Sir Sandford Fleming Campus of the provincial Colleges of Applied Arts and Technology.

The campus, which will offer more than 20 courses of one, two and three years duration to students graduating from Grades 12 and 13, will open its doors in temporary quarters in Peterborough September 11th.

This month, David Sutherland, president of the new campus, visited the high schools from Lindsay north to Haliburton Village talking to students about the courses to be offered, and answering their questions. He spent several hours talking to boys and girls at each of Lindsay Collegiate and Vocational Institute, Fenelon Falls High School, and Haliburton Highlands Secondary School.

In an interview, Mr. Sutherland said it was important that students throughout the whole area know about Sir Sandford Fleming, and recognize that it is their college.

"Sir Sandford Fleming doesn't belong to any city or district, but rather to the whole area", Mr. Sutherland said. "This Concept is important to us, and we are working to develop courses that will meet the needs and interests of students from all parts of the area".

Mr. Sutherland said Sir Sandford Fleming's courses in the first year will range from a wide variety of offerings in the Engineering and Agricultural technician and technologist fields, to business administration and secretarial science.

Courses will also be offered in such fields as early childhood education, home economics and social work.

Mr. Sutherland said graduates of the two and three-year courses will be equipped with the specialized knowledge and skills so vital to success in the modern world.

"The high school education that was adequate for most of our parents is no longer good enough", Mr. Sutherland said. "Today's students need specialized training if they are to meet the challenges of our complex world successfully."

Mr. Sutherland provided each district high school with a supply of pamphlets describing the courses to be offered. Students were invited to take them home to study. A supply of application for admission forms will soon be available at the high schools, or from the Campus, Box 653, Peterborough.

**FEDERAL LOAN APPROVED
FOR PUBLIC HOUSING PROJECT
IN LINDSAY**

Approval of a \$327,819 federal loan to Ontario Housing Corporation for the construction of a low-rental housing project in Lindsay, Ontario was announced today by the Honorable John R. Nicholson, Minister responsible to parliament for Central Mortgage and Housing Corporation.

Provided under the National Housing Act, the loan will assist in the construction of a 24-unit project consisting of 16 three-bedroom semi-detached units for families of low income.

The loan, which is for a period of 50 years with interest at five and three quarters per cent per annum, covers 90 per cent of the cost of construction. The Province of Ontario, through OHC will provide the remaining 10 per cent.

The federal government, as part of its program to reduce poverty and increase opportunity, will bear one-half of any operating losses. OHC will bear forty-two and one half per cent and the municipality the remaining seven and one half per cent. OHC will also be responsible for the construction and administration of the project.

The federal loan and subsidy arrangements are made under sections of the NHA which provide for long-term loans and grants to aid in meeting operating losses.

**EXTENSION OF CROP
INSURANCE PROGRAM**

This week the Minister of Agriculture announced that a test program of insurance on forage crop is being undertaken by the Crop Insurance Commission of Ontario.

A plan has been designed to include hay, hay silage, corn silage and seeded pasture on the basis of normal expected yield.

This plan represents another first on the North American Continent for such a forage crops insurance program. In Ontario, insurance is already available on winter wheat and spring grains.

The extension of this insurance programs will be tested in two areas of the province: and in eastern Ontario in the counties of Prince Edward, Renfrew and Lennox and Addington. If the plan proves to be acceptable in the test areas this season, it will be made available on a province-wide basis next year.

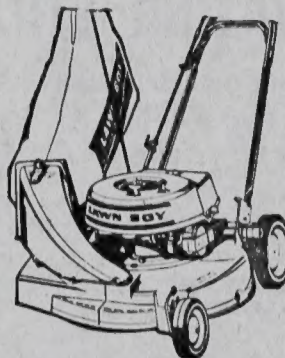

This is the third program to be developed by the Insurance Commission since it was established last September. It is a realistic approach to the problem of affording protection in the event of severe forage crop losses suffered by Ontario farmers, as in recent years.

MINTO MARINE

A FULL SHOWROOM OF SUMMER FUN

Back in the spring of 1954, all that could be seen at the Minto Marine location were a couple of motors sitting on a stand out in front, along with a few used boats for sale. All mechanical work on the motors was done in the basement of their home which is one side of their present Marine location.

Now the business sports a large showroom, with a full line of boating, fishing, and water skiing equipment. A first class repair shop and plenty of room for winter storage, along with gas pumps in front.

On dealing at Minto Marine, one always gets fast efficient service, and can depend on top workmanship. If one doesn't know what a friendly atmosphere is like, then they should visit Minto Marine here in Minden on Highway 35. Hard work along with a friendly atmosphere has made Bob and Jean Minto very successful business people over the years.

Bob was born at Gull Lake, and grew up in an environment of carpentry work and general duties around U. of T. Survey Camp. He attended high school in Minden, worked in a general store in town two years and at the age of 16 took a job as fireman on a steamship with CSL. He joined the Canadian Army, served with Hastings and Prince Edward Regiment, 1st. Division, Canada, United Kingdom and Continental Europe. Bob was among the 1st Canadian troops to be repatriated as he volunteered for Pacific theatre of active service. After demobilization he worked as foreman of a construction with J. of T. when the Survey Camp was being remodeled and expanded.

In his early years in business, he severely injured his back, but through perseverance, help of others, and a good deal of assistance from his wife Jean and sister May, he was able to steadily progress and keep his business going.

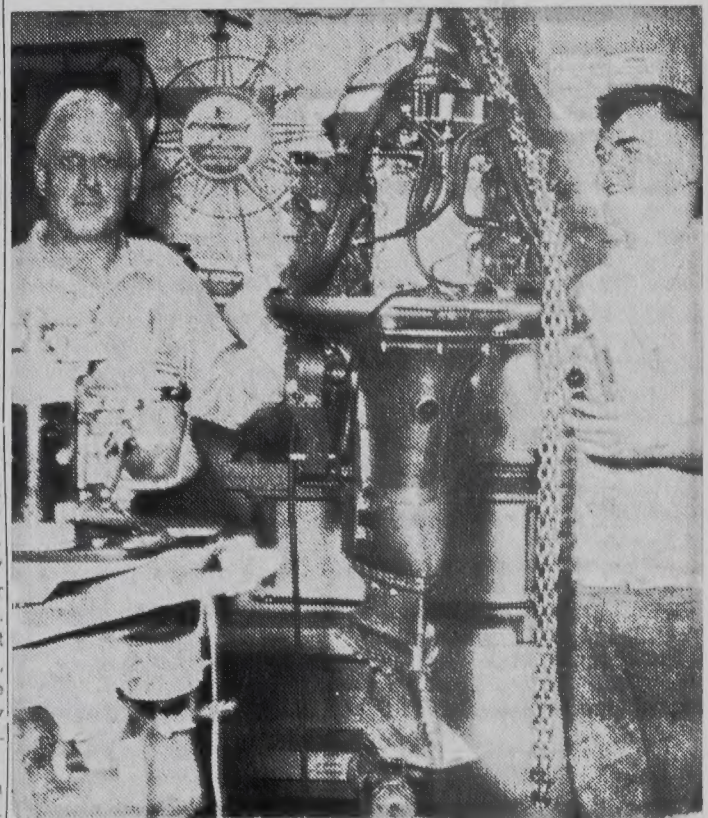

Service plays a big part at Minto Marine, repairs to both motors and boats keep them busy at all times. At present they employ six, and during the busy summer schedule three or four more are hired as summer help.

With Haliburton County fast becoming a winter playground, Minto Marine has swung into the snowmobile business to supply the demands for this winter recreation.

With a county like Haliburton and Maries like Minto's — supplying a full line of recreation equipment — one cannot miss having a good time here in Minden.

Jean and Bob Minto are pictured beside one of many new boats in front of their service department.

Bob, a top motor mechanic is pictured here with Ross Kernohan as they work on a big outboard.

Glen Hodgson M.P.P. is pictured above at the Centennial Fun Party held at the Senior Citizens Home recently. He was present as one of the guest speakers, and was wearing one of the old time straw hats for the occasion. Many of the other guests are pictured in their Centennial costumes.

BICROFT DISTRICT IN HALIBURTON COULD BE TOWNSHIP

The people of the improvement district of Bicroft may soon be able to apply to the Ontario Municipal Board to have their municipality classified as a township.

An act to amend the Municipal Act was approved by the committee on Municipal and Legal Bills this week.

Glen Hodgson M.P.P. said this permissive legislation would provide the authority to the people for the possible change of Bicroft into a township within Haliburton County.

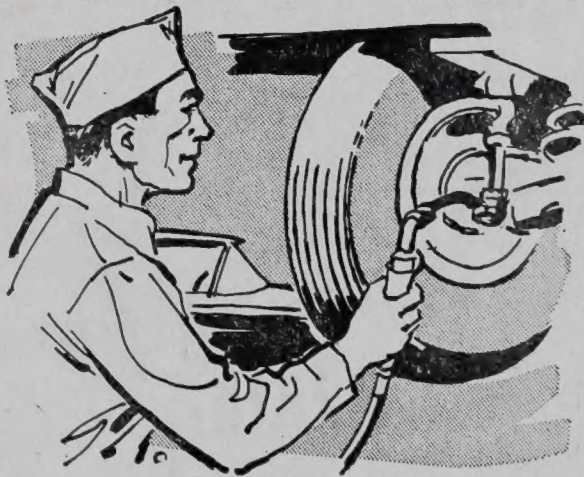

"The people who have served as members of the Board of Trustees have conducted the affairs of the community well, over the years, said the provincial member for Victoria and Haliburton. Continuing he said "due to the change of the area from the mining to its present status it was felt at this time, provision should be made to allow the local citizens to change their community classification if they wished".

The four girls picture above from the Carnarvon Rangers sang the Centennial hymn at the very successful Centennial Fun Party held at the Home. From L to R — Jeanne Packard, Dorothy Wallace, Rosemary Stinson and Margaret Wallace.
